

pfm bonsai 2016

We started out as a small teaching studio in 1995 and have progressed to a full bonsai nursery with the help of so many wonderful bonsai people. Today Pauline Muth enjoys teaching at the studio and national and international conventions and clubs. With the help of David Hodgetts she hopes to continue long into the future.

See below our plans for 2016.

When the studio is not in session for one of the events lists below and in our events calendar, we are open by appointment. Call us at 518 882 1039
